EDUCATION

Al-Rasheed International University for Science and Technology,

2019 – Present

Bachelor's in Software Engineering

Completed academic projects in full-stack development, software design, and IT training simulations.

PROFESSIONAL EXPERIENCE

Dama Tech Center, *General Manager & Software Development Trainer*

2024 – Present | Damascus, Syria

- Designed and implemented training programs in web development, programming, and IT skills.
- Managed a team of instructors and developers, ensuring high-quality delivery.
- Built partnerships with organizations to expand training opportunities and student employability.

Asia Computer Center, *Software Development Trainer*

2022 – 2026 | Damascus, Syria

- Delivered training courses in programming fundamentals and web development.
- Designed interactive curricula to meet the needs of students at different skill levels.
- Guided trainees through hands-on projects to apply theoretical knowledge in practice.
- Provided technical support and mentoring for learners preparing for IT careers.

(Freelance), *Frontend Developer*

2023 – Present | Damascus, Syria

- Built and maintained responsive websites and web applications.
- Developed user-friendly interfaces using **HTML, CSS, JavaScript, React**.
- Collaborated with clients to design and deliver tailored solutions.
- Ensured cross-browser compatibility and optimized performance.

Al-Rasheed International University for Science and Technology,

2023 – 2024

Problem Solving and C++ Fundamentals Trainer

Problem Solving and C++ Fundamentals Trainer at Al-Rasheed International University for Science and Technology; developed preparatory curricula for the case study list and applied them to work on algorithms and basic responses, thus enhancing students' readiness for frozen competitions and first-year projects.

(Freelance), *Project Trainer – Software (Front-End & Computer Vision)*

2023 – Present

Project Trainer specializing in **Front-End (React/TypeScript)** and **Computer Vision (OpenCV/PyTorch)**, mentoring student teams from scoping to demo-ready MVPs with measurable UX and model-accuracy gains.

SKILLS

Front-End Development

React.js,, HTML5, CSS3, JavaScript , TypeScript

Software Training & Mentorship

Programming Languages

C++, Python, Java, C#, JavaScript

Problem Solving

Data Structures, Algorithms, Competitive Programming, Logical Thinking

CERTIFICATES

Gold Medalist

Syrian Collegiate Programming Contest (Private Universities) SCPC

COURSES

UI/UX, Focal X

2025 – Present

PROJECTS

Code Academy, *Interactive coding platform with bite-sized lessons, game-based challenges, and auto-graded exercises.*

2024 – 2024

- In-browser IDE with unit tests, hints, and solution walkthroughs.
- Tiered challenges (easy→advanced) and mini-games (sorting visualizer, maze pathfinding, guessing game).
- Progress tracking, badges, and leaderboards to drive retention.

University Website,

2024 – 2024

– Al Rasheed International Private University for Science and Technology

- Developed the **front-end** using **React.js**.
- Built responsive, user-friendly interfaces optimized for students and staff.
- Integrated reusable components for scalability and maintainability.

Training Center Management

05/2026

This web application is designed to fully manage the operations of training centers. It provides an integrated dashboard to handle all core entities and their relationships, including institutes, courses, trainers, students, registrations, payments, and financial tracking for both center budgets and trainer payments. The system supports full CRUD operations (Create, Read, Update, Delete) for each entity.
